

# The Free Reseller Hosting Program

Start your own hosting business

## FREE Reseller

Why Choose Our Free Reseller Hosting Program?

**It's absolutely free & turn-key.  
We support your customers.**

We have been in the reseller hosting business for 17 years already and know how much it takes to set up a successful hosting business on your own. This is why we have developed a program that helps you dive into the hosting industry with minimum efforts. Here is what differs us from the majority of programs offered online: FREE White Label...

No Deposits	No Tech Skills Required	24/7/365 Support
We do not require any deposits from you whatsoever. Our reseller hosting system is fully automated, so once you set up your prices and start selling, we'll charge your customers directly and will send you the difference between your price and the wholesale price as a profit.	You do not need to be a computer geek to start your own hosting business with us. Our all-in-one Reseller Control Panel will help you set up your store, set your prices and manage all your customers with a click of the mouse.	We provide a dedicated 24/7/365 support service to you as our partner and to your clients. Our support team will be at your clients' disposal on your behalf and can be reached through our ticketing system, via live chat and email, or by phone (during business hours).

You can sell the following hosting services with us:

**CLOUD HOSTING – OPEN VZ VPS – SEMI DEICATED SERVERS  
DEICATED SERVERS – DOMAIN NAMES**

Each plan is pre-configured and is available on a 'per-customer' basis  
You do not have to purchase any of the plans in advance!  
Plus, you can get any of these plans for your own needs at a wholesale price!

## **Hepsia Control Panel**

Our custom-built Hepsia Control Panel will help you and your clients manage your sites and domains with simple point & click and drag & drop actions. Plus, you will have instant access to the daily backups of your data and to comprehensive website statistics.

## **Cloud Hosting Platform**

Our in-house built hosting platform is based on SSD drives and the ZFS file system, which is a guarantee for maximized site speeds, reinforced security and service scalability. Your and your customers' sites will be in safe hands with us 24/7/365.

## **The Path To Money**

See How Long It Takes To Set Up Your Hosting Business

## **Reseller Control Panel**

Our all-in-one Reseller Control Panel revolutionizes the commonly accepted reseller hosting model by putting all store management tasks under one roof. You will be able to set up your store, to configure your portfolio, to define your prices and to manage your clients from one place! Plus, you will not need to take care of the billing procedures, since we'll do that for you automatically!

## **How-To Video Tutorials**

We have created a series of reseller hosting video tutorials, which will guide you through the process of setting up and managing your own hosting business step by step. Also, on our site you will find a FAQ section and various reseller hosting and web hosting articles, so you could learn more about the challenges of the web hosting market.

## **Store Master - A Responsive, Turn-Key Reseller Template**

Our new, fully responsive and fully customizable Store Master theme will help you take full control of your hosting store. With a click of the mouse, you'll be able to change the look & feel of your store, to upload your own logo and favicon, to set a desired font, to set up special promotions and much more. The Store Master theme's admin area will allow you to see all the changes that you make in real time and to put them online in a matter of seconds. With the Store Master theme, you will not need a webmaster for your store anymore!

## **Store Master Reseller Hosting Theme**

You have full control over your hosting store

### **Store Master Advantages**

#### **Responsive Design**

Your online store will automatically fit into any screen size – from HD monitors to small-screen smartphones.

#### **Customizable Layout**

You can fully customize the layout of any page and re-arrange its contents the way you like.

#### **Unique Content**

Your online store will have its own, 100% unique content from the very start and you'll be able to edit it with ease.

#### **SEO Optimized**

Each page is fully SEO-optimized, in sync with all the other pages on your store, which makes it perfectly competitive right from the start.

#### **Easy To Manage**

You can make modifications and view them live through a user-friendly, point-and-click interface.

#### **100% FREE**

The Store Master template is 100% free to use. All customization options and layout controls will be unlocked for you right after signup.

## **100% Responsive Design**

The new template's design is fully responsive and will adapt itself to all common screen resolutions, platforms and orientation types. Now your store will have the capacity to automatically respond to your customers' browsing preferences and thus to offer an optimal viewing experience and hence – higher customer engagement and lower bounce rates.

The responsive theme will ensure easy reading and smooth navigation with a minimum of resizing and scrolling, across a wide range of devices – from desktop computer monitors to tablets and mobile phones

## **Fully-Customizable Layout**

Now you will have 100% control over the layout of your web hosting store. Using the template's point-and-click layout controls, you will be able to re-shape your store theme from top to bottom, with no special web design or technical skills required. You'll have the ability to customize your template just as easily as you'd customize a mobile application, for example.

All the changes that you make will be visualized for you in real time in a preview box, with an option to select a resolution based on a particular device (PC, tablet or mobile phone).

There is a wealth of point-and-click options that will allow you to tailor the store theme to your taste and marketing vision.

**250+ color themes to choose from**

## **Various Layout Controls**

### **Select your store's layout**

You can select a full-width layout or a layout with a sidebar on the left or right.

### **Organize the index page**

Modify the layout of the index page using simple drag-and-drop actions.

### **Organize the main menu**

Organize the main menu and its subpages in accordance with your marketing strategy.

### **Edit the store's footer**

Define the layout of the footer menu - arrange the columns with drag-and-drop actions and show/hide specific columns.

## **Various Branding Options**

### **Place your logo in the header**

Promote your brand using plain text or HTML code, or by uploading a custom banner (static or Flash).

### **Upload your own favicon**

Upload your logo, so your clients can see your brand in their browsers.

### **Edit the contact details**

Choose what contact details you'd like to be displayed in the footer area - phone numbers (US, UK, Australian, international), a fax number and/or an email address.

### **Select the font family**

Choose a default or a generic font family - select one from Google, or set your own custom font family.

## **Various Marketing Options**

### **Select a top service for your store**

Select the type of service you want to promote on your store.

### **Select how TLDs will be promoted**

Choose how the TLDs will be arranged in the banner area of the domain pages.

### **Select how services will be promoted**

Select the layout of your promotional banners - choose the number of columns and their content.

### **Select the width of your promo areas**

Select a short or a wide resolution for the menu and the promotional banner areas.

## **100% unique content for your store**

The content itself takes up about 50% of all the work on a given site. By default, your store will come with its own unique SEO-optimized content for all the pages and promotional banners. This way, you will not need to bother fiddling with your website content to optimize it for the search engines and for the visitors. You will have everything pre-set and loaded for you the moment your store is installed.

However, if you want to change a line or a whole paragraph to your liking, you can do so with a click of the mouse. Also, you can edit the metadata to reflect a change in the content. It is that simple and easy.

[JOIN HERE](#)

## **Edit the page content**

Through the inline editing functionality, you can change any text the way you want. Just click on the Edit icon next to a text chunk and edit the text like you'd edit a Word file.

## **Edit metadata**

Edit the meta information for your pages, including titles, descriptions and keywords. Also, you can edit the URL address of each page to further optimize it in tune with the selected keyword(s).

## **SEO-Optimized Web Pages**

Each page on your store will be fully optimized around a certain top keyword or phrase. The keyword will be featured in all basic elements of the page - the URL, the metadata, the <h1> title and the content. This way, your site will be fully eligible to compete for a top position in search engines right from the start.

After kickoff, we'll be updating your store automatically at regular intervals. We'll add new pages and content periodically to make search engines know that your site is evolving and needs special attention.

## **An Easy-to-Use Admin Panel**

The theme comes with an in-built admin panel through which you can make all the customizations that you want. You will not have any contact with the code, so managing your web store will be like setting up a social media profile, for example.

However, if you are experienced in web development and want to make some tweaks to the page formatting, you can use the inline text editor tool and change the code directly. If you need assistance with the theme, you can contact us for support 24/7/365.

Next Page

## **Available for free**

The new theme is available to you for free and will be hosted on our servers at no charge. All you need to do is become a member of our reseller hosting program and select the theme for your store from your Reseller Control Panel.

There will be no hidden fees or maintenance costs for you after setting up the store. We will give you the ready-to-go theme gratis, so that you can save both money and time and dedicate all the resources to building a winning marketing strategy for your hosting business.

## **Full API Integration**

The new hosting theme is fully compatible with our system, so all the changes you make from your Reseller Control Panel will be immediately available on your store. Also, you can make changes to the offered services and their pricing whenever you like. They will be updated on your store within seconds.

Just like with the theme's frontend, there is nothing to configure on your end. It's all a matter of simple point and click actions to have your service updates reflected on your store.

## **See Our Templates In Action**

The new template offers a 100% responsive design for all common screen resolutions, platforms and orientation types. Now your store will have the technology to automatically respond to your customers' browsing preferences and thus offer an optimal viewing experience and hence a better engagement and lower bounce rates.
